TASMANIAN AMATEUR RADIO CONVENTION '85

GPO Box 215C, Hobart, Tasmania 7001 Telephone (002) 286351

Through the worldwide bonds of amateur radio which breach the barriers of nationality and culture the Tasmanian Division of the Wireless Institute of Australia sends fraternal greetings to radio amateurs in Wales and to the officials and members of the RSGB generally, on the occasion of the re-enactment, by spark transmission, of the first wireless signals from ship to shore in 1901.

We salute the 75th anniversary of the foundation of the WIA.
